

The Gower Initiative for Modern Money Studies

The Gower Initiative for Modern Money Studies (GIMMS) is an independent, non-profit organisation which is part of a growing international movement which challenges the economic orthodoxy of the last four decades.

The dominant economics of our day is deeply flawed. It fails to address questions of real resources and the impact of government policy on people's lives.

We believe that a good economic system should consider the effects of policy as an integral part of the design, not as an afterthought.

The founders of the Gower Initiative are proponents of Modern Monetary Theory (MMT). An awareness of MMT as a lens for understanding the economy is growing around the world. As the Gower Initiative our purpose is to offer a UK portal for that understanding.
